

### Note about project reports:

- Deadline: November 26<sup>th</sup>
- How to report:
  - Do not need to do presentation
  - Write a report document and send it to my email: [ncamtu@gmail.com](mailto:ncamtu@gmail.com)
- Report document requirements:
  - Less than 10 pages
  - No copy!
  - With team information and the role of each team members, team leader.
  - You can use the suggestions from the previous analysis results on the same dataset on Kaggle. However, you NEED to provide references to those analysis.
  - Outline suggestions:
    - Introduction:
      - Describe the data set and the task (clustering/classification/outlier analysis, etc.)
    - Data exploration and preprocessing.
      - Does the dataset need preprocessing?
      - What methods do you use for preprocessing.
    - Data Mining:
      - What algorithms you use for your task?
      - What evaluation methods, and metrics to evaluate the results?
      - Report the results
      - Write discussion about the results
    - Conclusion.
